

Giant Loop Tank Bag Collection

Fandango Tank Bag™

Designed for nonmetallic tanks/cowls. Partially unzip from base for fuel fill access, or completely remove bag leaving harness on bike, adjusted and ready to go.

- For commuting, day rides and touring
- Fits many dualsport, adventure and sport bikes (without tower-shaped fuel fills)
- Slim, trim profile
- Volume: 10 liters

Buckin' Roll Tank Bag™

The tank bag solution for tower-shaped, motorcycle fuel tanks, such as the large-capacity Acerbis dry-break type models. Keep all the essentials handy for dirt bike, dualsport and adventure touring on motorbikes.

- 2 zippered side pockets (1.5 liters each)
- 1 center camera pouch (.5 liter) with storm flap, drawstring internal closure and exterior mesh pocket
- Straps on/off bike in seconds
- Mounts without drilling, braces or hardware required
- Slim, trim profile rides like it's not even there

Fandango + Buckin' Roll = Supertanker

Wrap the Buckin' Roll around your Fandango Tank Bag and add 3.5 liters of pockets - enough room for long days on big bikes.
