FITTING INSTRUCTIONS:

- 1 Loosen all harness straps by lifting alloy pin whilst pulling cord-loop backwards.
- 2 Put on pack and fasten front harness zip.
- 3 Tighten both bottom buckles simultaneously, pulling the pack into the small of the back.
- 4 If necessary readjust top buckles for a comfortable fit. (shoulder straps should not be tight).

Once set the Quadloc system rarely has to be readjusted to achieve the correct comfort level.

R30

The perfect motorcycle commuter pack

30 litre capacity

Drypack - 100% waterproof main body

Innovative QUADLOC™ harness:

Once set - just click in and out. Harness angled away from underarms for total freedom of movement and no shoulder pull. Optimum fit with size adjustable shoulder harness

CNC 6061-T6 alloy buckles

fixed loop - no loose ends (patent protected)

6-point pack compression

High visibility front & back

Organiser pockets:

2 x Zipped (water resistant) outer pockets

Options: US-5, US-10, Kubepocket, Kube 1 & 4

10 Year Guarantee

490 x 300 x 210 mm
H x W x D

PHOTO: Performance Bikes

The pack is supplied pre-adjusted to level 2 on the harness straps. This harness position will fit the majority of riders. Adjust to level 1 for XS and level 3 for XL fit.

- 1 Firstly push the harness strap back into the pack, to release the harness-web tension.
- 2 Shorten or lengthen harness by moving slider on web - equal both sides.
- 3 Pull harness strap back out of pack, to tension harness-web.

Put on the pack and fasten front 2 x harness buckles. Tighten both bottom buckles simultaneously, pulling the pack into the small of the back. Once set the Quadloc system rarely has to be readjusted to achieve the correct comfort level.

R25

Our most popular commuter pack

25 litre capacity

Innovative QUADLOC™ harness:
Once set - just click in and out. Harness angled away from underarms for total freedom of movement and no shoulder pull

CNC 6061-T6 alloy buckles
fixed loop - no loose ends (patent protected)

4-point pack compression

High visibility front & back

Organiser pockets:
Expanding front, zipped inner mesh, inner A4 sleeve

Options: Kubepocket, US-5, US-10, US-Liner
3L Hydrapak reservoir

10 Year Guarantee

Kriega sponsors Craig Bounds
Dakar
2010
2011

Dakar 2010 - PHOTO: Maindu

CARE INSTRUCTIONS:

Reservoir - Easy to clean. Turn inside out, wash and let dry. Complete drying is the only way to ensure no microbial growth.

Bite valve - Designed to split into 3 parts for cleaning. Remove the soft cover. Pull apart the internal pieces. There is an indent where the Slider naturally stops and you just need to keep pulling it past this point. All 3 pieces will go back together again and work as normal.

Tube - To clean tube, a brush kit is the easiest, especially if sports drinks are put into the reservoir. Otherwise, rinse and let dry in between uses. If you have to take your bite valve out of the tube frequently, you can cut 10mm off the drink tube to keep the connection tight. Cutting the tubes does not have to be done every time you take out the bite valve.

To close pack - roll over closure and connect the quick release buckle. Adjust to waist size by lifting and pulling cord on alloy buckle pins. Back-off alloy buckles to swivel pack around for access.

Kriega's universal system is a range developed to fit together to form larger capacity storage solutions or to change the function of the product.

The 100% waterproof luggage blocks can be used as tailpacks or tank bags with the TANK convertor. Storage solutions from 5 to 90-litres are possible. The system is the most versatile bike luggage system on the market. Available in 5, 10, 20 & 30 litre packs.

6061-T6 alloy hook strap x 4

New fitting straps for 2011. 4 x 20mm web loops attach to the bike's subframe.
Easy on/off via 4 x alloy hooks with no loose straps left on the bike. Also works with
US-20 and US-10. (See US-Hook strap page).

100% waterproof
US-20

TANK

US-Tailpack to Tankbag converter

Choose between 5 , 10 or 20 litres

Fits metal or plastic tanks

Quick release for fuel fill

Ultra-grip base fabric

US-5

US-10

US-20

Includes full fitting hardware and instructions. Front straps locate on to rad. mounts or headstock. Rear quick-release straps locate with industrial velcro under seat. (self adhesive velcro included)

US-Hook straps

Upgrade alloy hook straps for US-10 and 20 packs (std. on US-30). Extra secure subframe fitting kit allows tailpack combinations of up to 90-litres. Fitting straps have been designed to fit virtually any style of bike. Particularly suitable for traditional one-piece seats or bolt-on seat-pads/racks

Custom 6061-T6 alloy hooks

Multi-position:
US-packs can be fitted inline or across seat.

Drypack - 100% waterproof main body

Fitting straps:
4 x quick release buckles & hooks. Easy on/off with no loose straps left on bike.

Adjustable sub-frame loops:
4 x 20mm frame loops. Adjustable in length to allow for any style seat and frame.

10 Year Guarantee

NEW
for 2011

Strap+loop
Max. length
600mm

Easy on/off:
Just back off the strap tension & slide off the 4 x alloy hooks.

No loose straps left on bike

PHOTO: Jon Beck

NB - Some bikes already have web loops attached to the seat/pad base. In this case we still recommend the fitting of the Kriega loops, as fitting to the subframe is far stronger than to the seat. (for full fitting instructions see www.kriega.com for fitting videos).

KS-40

Alloy Pannier Liner-bag

Fits any capacity Touratech-ZEGA or Metal Mule panniers. 2-stage zoom allows the storage to be expanded from 30 - 35 - 40 litres. The KS-40 also makes an excellent carry-on flight bag, which can carry a full-face helmet.

includes shoulder strap

Fitting: Position cover centrally on helmet chin. Lift and pull zip to close cover.

Neoprene will absorb minor knocks and save on abrasion and scratches; consequently the neoprene will degrade over time. To maintain in optimum condition, keep clean by washing in luke warm mild detergent and then dry thoroughly in open air. Neoskin creases easily but will return to its natural smooth state with use. Heavy creases formed by packaging will disappear.
